

HTC U Ultra

Insert the SIM card and battery

HTC U Ultra uses a nano SIM card.

Use a standard nano SIM card only. Inserting a modified card that is thicker than the standard nano SIM card may cause the card to not fit properly or damage the card slot.

Inserting a nano SIM card

1. Hold the phone face down.
2. Insert the tip of the tray eject tool that came with your phone—or a small bent paperclip—into the nano SIM tray eject hole.

3. Push the tip all the way into the hole until the tray ejects, and then pull the tray out.
4. Place the nano SIM card into the tray, with the gold contacts facing up and cut-off corner facing out.
5. Insert the card tray back into the slot.
