

Sony Xperia XZ Premium - How to insert your SIM card

Your device only supports nano SIM cards. The nano SIM card and the memory card have separate slots in the same holder, make sure you don't confuse the two.

To prevent data loss, make sure you turn off your device or unmount the memory card before you drag out the holder to remove the nano SIM card or memory card from the device.

Do not cut your SIM card, as this may damage your device.

1. Drag out the memory card tray and the SIM card tray.
2. Place the SIM card securely in the SIM card tray, as shown in the video.
3. Place the memory card securely in the memory card tray, as shown in the video.
4. Gently push first the SIM card tray, then the memory card tray, back into their slots until they fit into place.

If you needed a new sim card, you will have received a triple sim card pack. You'll need to pop out the appropriate sim card that is needed for your Sony Xperia XZ Premium .

Mini-SIM

Micro SIM

Nano Sim

Sony Xperia XZ uses a nano sim card.
